Tech has changed our social lives

**technologies
that has
affected our
social lives**

landline phones

paggers

mobile phones

emails

texting

**video
conferencing**

online games

social media

.....
.....

Think of some digital product (software or hardware) throughout history and how our social life was before and after it.

it also enhanced our social lives

- networking > knowing more people
- meet friends online
- selling more stuff to people
- freely expressing themselves (emotions)
- calling family from far away
- faster communication

Face-to-face conversations

limitations of face-to-face

- flexibility in time .. & location ...
- not comfortable for introverts ..
- being judged ..
- cannot multitask ..
- just-in-time/immediate response ..
- cannot hide body language ..
- cannot run away from unhealthy meetings ..
-

Different channels

- Split into 5 groups
- 1 face to face
- 2 texting
- 2 video
- discuss: **Android vs iOS**

Different channels

- How did it start?
- How did it end?
- Did any breakdowns happen?
- how did you solve them?
- how did you lead the conversation?
- Other factors: response time, humor, emotional tone, interruptions, argument, clarity of communication, level of engagement.
